Important Notes and Helpful Hints:

1. Nothing by Mouth within 3hrs of your check-in time. This includes clear liquids, candy, and gum. Taking anything by mouth within 3hrs of check-in will cause a delay or cancellation of your procedure.
2. Your exam will only be as good as your colon prep. A good sign that the prep has been effective is the transition to clear, watery bowel movements. If, 2 hours prior to your check-in time, your bowel movements are not clear (that is, if they are still solid or mostly brown), please call the phone number below for instructions.
3. Many patients find that chilling the laxative and drinking through a straw improve tolerance.
4. You may use baby wipes instead of toilet paper and Vaseline in case of a sore bottom.
5. Remain close to toilet facilities as multiple bowel movements may occur. The prep often starts working within an hour but may take many hours to start working.
6. You may take oral medications with water during the prep and up to 3 hours before check-in time.
7. Please allow 7-10 business days for all the exam results.

Diabetic Patients:

1. Please refer to **Diabetic Protocol** form provided by our office and Hold (do not take) your diabetic medication the morning of the colonoscopy.
2. Use sugar free drinks for liquids (like Crystal Light) during the prep to avoid increases in blood sugar. Monitor and control your blood sugar closely during your prep to prevent low and high blood sugar. Note: Your procedure may need to be cancelled if your blood sugar is over 300mg/dl on arrival.
